ABSTRACT

Small-scale events in sports tourism (SSEST) play an important role in contributing to the economy of various destinations and the local community. Despite the diversity of research in the marketing and managing of sporting events, limited studies have been conducted on sports tourism events in Malaysia, especially with regards to visitors' psychological behaviours. Hence, the purpose of this study is to examine the influence of motivation, perceived image, perceived value, and satisfaction on visitors' future behavioural intentions for attending small-scale events in sports tourism. This study has chosen the Theory of Planned Behaviour, the Tourist Attraction Theory and the Push and Pull Theory as theoretical backgrounds. Data was collected from self-administered questionnaires among 468 visitors who attended selected small-scale events in sports tourism in the northern region of Peninsular Malaysia. This study generally found that perceived value factors highly influenced visitors' decisions to attend an event, followed by the motivation factor. This study also discovered direct and indirect relationships among those variables, which have been analysed using Structural Equation Modeling using AMOS (SEM-AMOS). Findings revealed that all variables have a direct relationship with visitors' future behavioural intentions. Meanwhile, in terms of an indirect relationship, results indicated that visitors' satisfaction partially mediates the relationship between motivation, perceived image and perceived value towards future behavioural intentions. This study contributes to the body of knowledge with a proposed model that reveals an association between motivation, perceived image, perceived value, satisfaction, and behavioural intentions among visitors' participating in SSEST. In addition, this study has concluded that, in order to attract visitors to attend small scale sports tourism events, organisers should enhance their understanding of visitors' perceived values. Furthermore, state tourism authorities should design and plan strategies to develop small-scale events that are comparable to mega-sporting events as local products that will be able to attract tourists.

ABSTRAK

Acara berskala kecil dalam pelancongan sukan memainkan peranan penting dalam menyumbang kepada ekonomi pelbagai destinasi dan masyarakat setempat. Walaupun terdapat kepelbagaian penyelidikan berkenaan pemasaran dan pengurusan acara sukan yang pernah dijalankan pada masa lalu, masih terdapat kekurangan kajian yang berkaitan dengan acara pelancongan sukan di Malaysia terutamanya berkenaan tingkah laku psikologi pengunjung. Justeru, kajian ini bertujuan untuk meneliti pengaruh motivasi, imej tanggapan, nilai tanggapan, dan kepuasan terhadap niat tingkah laku pengunjung apabila menghadiri acara pelancongan sukan berskala kecil. Kajian ini memilih Teori Tingkah laku Terancang (*Theory of Planned Behaviour*), Teori Penarikan Pelancong (*The Tourist Attraction Theory*) dan Teori Tolakan dan Tarikan (*Push and Pull Theory*) sebagai teori asas kajian. Data dikumpul melalui soal selidik yang diedarkan kepada 468 pengunjung yang menghadiri acara pelancongan sukan berskala kecil terpilih di wilayah utara Semenanjung Malaysia. Secara umumnya, kajian ini mendapati bahawa faktor nilai tanggapan amat mempengaruhi keputusan pengunjung untuk menghadiri acara ini, diikuti dengan motivasi. Kajian ini turut mengkaji hubungan langsung dan tidak langsung antara semua pemboleh ubah dengan analisis *Structural Equation Modeling* menggunakan AMOS (SEM-AMOS). Hasil dapatan mendapati bahawa kesemua pemboleh ubah kajian merupakan peramal yang signifikan kepada niat tingkah laku pengunjung. Sementara itu, dari segi hubungan tidak langsung, dapatan kajian mendapati kepuasan pengunjung menunjukkan hubungan separa pengantara di antara motivasi, imej tanggapan dan nilai tanggapan terhadap niat tingkah laku pengunjung. Berdasarkan model yang dicadangkan, kajian ini menyumbang kepada bidang pengetahuan yang menjelaskan perkaitan antara motivasi, imej tanggapan, nilai tanggapan, kepuasan, dan niat tingkah laku dalam kalangan pengunjung yang mengikuti acara pelancongan sukan berskala kecil. Di samping itu, kajian ini menyimpulkan bahawa, untuk menarik pengunjung untuk hadir ke acara pelancongan sukan berskala kecil, penganjur hendaklah mempertingkatkan kefahaman mereka terhadap nilai tanggapan pengunjung. Selain itu, pihak berkuasa pelancongan negeri harus mereka bentuk dan merancang strategi untuk membangunkan acara pelancongan sukan berskala kecil yang setanding dengan acara sukan berskala mega sebagai produk tempatan yang boleh menjadi tarikan kepada pelancong.

ACKNOWLEDGEMENT

In the name of Allah, the Most Gracious and Most Merciful, All praise to Allah for all his blessing and guidance which provide me the strength to face all the challenge and trails in completing this research. My love and appreciation goes to my parents, Mr. Abdul Wafi bin Ahmad and Mdm. Latipah binti Zakaria, brothers and sisters who instilled in me the value of hard work and dedication. The innumerable sacrifices which they have made for me are something for which I will always be grateful.

I would like to convey my grateful thanks to my supervisor Assoc. Prof. Dr. Lim Khong Chiu, who had been giving me a support and advice for the completion of this research and also to Dr. Johan Afendi Ibrahim and Prof. Dr. Kalsom Kayat who always giving the valuable information, correcting errors, just to ensure the best effort has been given in the completion and achievement of this work. Without the intelligent idea and guidance from them this research will not exist at all. I also would like to thank all of my friends those whom also had been giving me a support, advice and motivation to the completion of this work.

Again, sincere appreciations are given to my beloved parents and to all of my family members and friends for their patience, prayers and understanding over the entire period of my study.

CHAPTER ONE

INTRODUCTION

1.1 Background of Study

Events tourism has become one of the quick-growing tourism industries. Some of the features that attracted tourists to participate in events tourism are festivals and special events. Besides that, sport-related travel is a prominent practice in tourism where people travel to a destination to join or attend sports events. Gibson (1998) stated that events sports tourism consists of several categories such as hallmark events, mega-events, and small-scale events sports tourism (SSEST). SSEST is defined as a normal season or a small unique sports events which provide the residents with more advantage, but a small number of difficulty compared to hallmark or mega sporting events (Higham, 1999). On the other hand, Gibson, Willming, and Holdnak (2003) specify that small scale-sports events like common season of sporting games, domestic tournament and masters or disabled sports activity, for example, soccer, adventure, and outdoor events such as cyclethon, skiing, marathon, motocross championship, mountain bike challenge, and many more.

The difference between SSEST compared to mega or hallmark events is small-scale sports events has a slightly lower national impact because the events are organised in a community. The events have a small impact due to the minimal funding, the use of existing infrastructure, and the low coverage of publicity. Besides the use of minimal funding, SSEST is more feasible in terms of crowding and congestions. Like stated
